Acknowledgement: Bob Hisey kindly typed the complete, original, hand-written manuscript into Microsoft Excel. Franco Frescura gave me access to a preprint of his revised BONC listing prior to publication, as well as permitted the use of his classification scheme and the two schedules illustrating the BONCs.

Introduction

So far no official list ascribing specific post offices to Numeral Cancellers of the Cape of Good Hope has been located. Thus the information that follows has been derived from proving covers, proving pieces and occasionally from individual stamps, by innumerable philatelists over many years.

The number of recorded dates for each numeral is solely the responsibility of the author from his records and is given more to emphasize the accuracy of the ascribing of specific numerals to individual post offices, than for any other reason. Where a specific numeral has been ascribed more than once to the same post office, it can be assumed that the ascription is probably correct.

Of the approximately 1431 BONCs thought to have been issued, 787 (or 55%) have been positively allocated to post offices. A further 420 (or 29%) have been identified as having been used on Cape of Good Hope stamps (CGH in the text) and 224 (or 16%) remain totally unidentified. Thus 45% of all of the numerals have still not been allocated to specific post offices. Much of the research and hunting remains to be done and findings revealed!!

While the earliest date recorded was in 1863 and the latest in 1963, approximately 634 of the earliest dates were found in the 30 year period 1880 – 1910. This is hardly surprising as the discovery of diamonds in 1867 greatly stimulated the economy of the CGH, and the Second Anglo Boer War of 1899 – 1902 also led to a marked increase in correspondence.

Distribution of the BONCs

Although there are a few anomalies that await elucidation from further discoveries, the distribution of the BONCs to the individual post offices appears to have proceeded more or less as follows:

BONCs	Earliest Prominent Usage
1 - 39	1864
40 - 200	1874
201 – 400	1877
401 – 600	1882
601 – 800	1884
801 – 1000	1892
1001 – 1200	1896
1201 – 1400	1901
1401 – 1509	1906

BONCs 1, 2 and 3 appear for the first time in 1864. BONC 1 of Cape Town has been reported once as used on 8 Feb 1863, but this may well have been a trial canceller used by the post office to test whether numeral cancellers were what they desired to replace the ageing Barred Triangular Obliterators (BTOs). The latter had been taken into the postal service when the Cape Triangular Stamps had been introduced in 1853. The BTOs had arrived at the Cape in 1837 to process fiscal documents, and in 1853 were transferred from the treasury to the post office.

There are a few anomalies to the above timelines that require further elucidation. For example BONC 184 has been recorded used in 1870; BONC 965 in 1872; BONC 202 in 1874; BONC 530 in 1876; BONC 1338 in 1889; BONC 1112 in 1890; and BONC 1241 in 1896.

But other than these seven exceptions, the above table seems to be a fairly accurate representation.

It appears that after BONCs 1, 2, and 3 were issued to the three biggest towns in the colony; namely Cape Town, Port Elizabeth and Grahamstown in the 1863/4 period; that further distribution of the BONCs was entirely at random from the BONC canceller stocks on hand, as and when it was deemed necessary to supply a numeral canceller to a post office. No noticeable pattern as to size of town or magisterial district can be gleaned. It is not even clear whether the BONCs were issued chronologically from lowest number to highest.

One BONC being used at two or more different post offices at the same time, probably indicates the movement of a postal official from one post office to another; in the process taking the cancelling instruments with him.

No attempt to edit the work of other philatelists has been made. Their reported findings have been recorded in this monograph. A few improbabilities may possibly have been caused by indistinct cancels difficult to decipher accurately.

This monograph also enumerates the CGH BONCs that have been reported to have been used in territories other than the CGH. These encompass Basutoland, Bechuanaland, British Central Africa (Nyasaland, now Malawi), British South Africa Company (Rhodesia, now Zimbabwe), Orange River Colony, Swaziland, Transvaal, and Portuguese East Africa and Tanganyika. In total these amount to about 75 numerals.

Occasionally BONCS appear to have been used as receiving cancellers at a post office, although they were supposed to be used only as dispatching cancellers. Even more rarely they appear to have been used as in transit cancellers. In both these cases it may have been that the dispatching post office failed to use an obliterator on a cover's stamp.

Diameters of the Bars of the Cancellers

Thick bars are commonly one to two mm. in diameter, while thin bars are usually not more than one quarter of a mm. in diameter, and often considerably less than that. The rare medium bars have a diameter somewhat in between – about half a millimetre.

Duplex Cancellers

In a Duplex Canceller, the BONC and the single circle town identifying cancel, are joined together to form one cancelling instrument. Only three Duplex Cancellers are known, two used in Cape Town with Numeral 1, and one used in Port Elizabeth with Numeral 2. The commoner and earlier (1870's) one for Cape Town is a 3.3.3 configuration with thick solid bars, while the later one (1880's) has a 6.6.6 broken bar configuration with thin bars. The Port Elizabeth Duplex Canceller is only known used twice in 1864, with thick bars and a 3.3.3 configuration.

Format of date

The earliest and latest dates are written according to the British system; day-month-year. The earliest date is in 1863; the latest 1963. A full century of usage!!

PHILATELIC SOCIETY FOR GREATER SOUTHERN AFRICA

David McNamee, Treasurer

PO BOX 37, Alamo, CA 94507 USA

Fiscal Year September 1, _____ through August 31, _____

I am applying for membership in PSGSA:

Name: _____

Mailing Address: _____

City, State/Prov. & Post Code: _____

Country: _____ APS No. _____ (if any)

Collecting Interests: _____

I wish to become a member of PSGSA @ US\$20 per year US\$ 20

Membership includes an electronic version of *Forerunners* regardless of residence. Please verify your email address to receive notices of publication:

Your Email _____

Members who do not have email or members who want the printed journal for their convenience need to select the **appropriate postal surcharge**.

I wish to receive *Forerunners* as a printed journal (3 times/year):

Postage to USA addresses is an additional US\$5/yr. _____

Postage to Canadian addresses is an additional US\$10/yr. _____

Postage to all other addresses is an additional US\$15/yr. _____

NOTE: Libraries will receive the printed journal without postal surcharge.

TOTAL enclosed **US\$** _____

You may also pay by PayPal without additional cost by sending the funds as "Family and Friends" to: dmcnamee@aol.com, otherwise add **US\$2 to cover PayPal fees.**

David McNamee
PSGSA Secretary-Treasurer

Specialized in classic & modern SOUTHERN AFRICA, GERMANY and SCANDINAVIA
